

LONG-DISTANCE & PERFORMANCE

Ultra-Long Distance

Thermoplastic reinforced gum improves longevity and performances without decreasing grip

Hardskin to increase tire resistance to perforations and cuts without deteriorating comfort nor performances

Technology Kevlar Pro Tech consists of a reinforced carcass with flexible & very dense textile grid 100% Kevlar.

Placed under the tread, this reinforcement increases tire resistance to perforations & punctures to more than 50% without deteriorating its performances.

HARDSKIN technology features a reinforced carcass by a flexible & very dense textile grid.

Placed on the sides, this reinforcement increases tire resistance to perforations and cuts without deteriorating comfort nor performances.
